² However, Conn. Gen. Stat. § 46a-170(f)(1)(D) (Trafficking in Persons Council. Membership. Duties. Reports.) tasks the Trafficking in Persons Council with developing a plan to provide services through diversion.

³ While the court may order a child to receive “special treatment and care for reasons of physical or mental health,” that response is discretionary and Minnesota law does not clarify that sex trafficking is a physical or mental health need. Minn. Stat. Ann. § 260B.198(1)(a)(7) (Dispositions; delinquent child).

⁴ Notably, child sex trafficking is treated as a juvenile-family crisis case; however, this process does not statutorily require a specific service response for commercially sexually exploited children.
